Maxi cab Van Owners

60,000
Cab Owners

Why Tamil Nadu

Chennai, being one of the oldest metropolitan cities in India, has also emerged as an automotive hub due to the policies of the state government, which placed it on the world map as the "Detroit of Asia" due to the presence of major automobile manufacturing units and allied industries around the city. It is reported that Chennai is the base of 30% of India's automobile industry and 35% of India's

About the organizers

As the main sponsor for the Passenger Vehicle Expo, the All Omni Bus Owners Association (AOBOA) brings together all Passenger Vehicle Owners to join hands and represent their rights and demands while taking care of the welfare of the people involved in Passenger Vehicle Sector i.e. Omni Bus/Moffusil Private Buses/Car/Van/Mini Bus/Tourist Bus/College Bus/ School Buses/Private Staff Vehicles.

The Association was established to serve as a bridge between the government and omnibus owners, facilitating all necessary integration to improve service within the omnibus transport community. AOBOA successfully organized the Passenger Vehicle Expo 2023 & 2025 and has held the Omnicon event for the past three years, each time on a grand scale.

5. Community Meet ups
6. Interactive Sessions
7. Meet Manufacturers, Dealers & Importers
8. Ideal Networking Platform

The Indian Bus-Car-Van Market

The Indian bus, car, and van market is a rapidly growing industry that is attracting investments from both domestic and international players. The market is primarily driven by the increasing demand for passenger transportation and the rising trend of urbanization.

The Indian bus market is dominated by the intra-city bus segment, which is expected to continue its dominance in the coming years. The segment is primarily driven by the demand for low-floor buses, air-conditioned buses, and buses with improved safety features. On the other hand, the inter-city bus segment is also gaining momentum due to the increasing demand for luxury and comfortable travel options.
